

## WHICH FUELBELT PRODUCTS ARE BEST FOR MY STORE?

This is one of the most frequent questions we hear. To simplify the ordering process, we've created a start-up matrix based on the type of specialty retailer you are. You will see that what works for the run retailer will be different than what works for the independent bicycle dealer. Our quick guide is designed to make the ordering process turn-key which will lead to fast turnover and more sales. Use the matrix as a starting point to get your store up and running!

### *RUN*
